

Mission Statement

We will help children develop the skills, habits and knowledge necessary to achieve the goals that our Heavenly Father has for them.

We believe that parents and the family have the primary responsibility for the education of their children. We will strive for excellence in supporting the family and helping the family to carry its responsibility.

We strive to strengthen the family unit by involving the family in the educational process. We require parental commitment and responsibility as it pertains to supporting each student. This support is expected in the form of parents supporting school rules and policies and taking an active role in their student's schoolwork and homework.

Our goal is to give the children the desire to achieve the highest standard of excellence in everything they endeavor, including establishing strong values, building a firm foundation and reinforcing their future success.

It is our goal to help the children progress academically, spiritually, and build the necessary social and character skills they will need to be an outstanding example for all others to follow.

Through achieving these goals, the children will be well on their way to the road to success.

Vision Statement

Morning Star Preparatory Academy provides a safe supportive learning environment in which teachers light a fire in the students' hearts and inspire a life-long love of learning.

Teachers, administration, and staff teach by example, working together to support the parents in instilling and solidifying the Lord's principles in our students.

Teaching the Gospel of Jesus Christ and serving the Lord is our first priority, followed by 100% mastery in all areas.
