**How do I ensure that the Media/Video Clip I select is Core Concept Compliant?**

**Explanation and Definition**

**Core Concept compliance means every part of the content either openly or passively supports all of my organization's core concepts and any conflicts are supplemented with alternative material that is either passive or openly supports my core concepts.**

**Support means the content is directly advocating, teaching or presenting in a way that assumes that the core concepts are accepted fact.**

**Passive or silent means the content does not strongly push the concept or is not mentioned at all, but the reader can still assume the core concepts are accepted fact.**

**Conflict or contradict means the content in whole, or in part is in conflict with any one or more of the concepts.**
